Forecast For Yorkshire & the Humber
Issued by Met Office Exeter
at 0400 on Tuesday 23 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Mostly cloudy with drizzle on hills. Becoming windy.

Today:
A mostly cloudy day, with just a few sunny spells possible in eastern areas, although likely fewer than of late. Generally dry in the east, but with some drizzly outbreaks possible over western hills. Winds strengthening through the day. Maximum temperature 11 deg C (52 deg F).

Tonight:
Cloudy and windy, with some rain moving southeastwards, lingering for most areas through the early hours. Winds easing overnight. Rain perhaps clearing northern areas by dawn. Minimum temperature 5 deg C (41 deg F).

Wednesday:
A mostly cloudy start with outbreaks of rain for many. Rain clearing to give sunny spells, but with some isolated showers developing. Becoming breezy. Maximum temperature 12 deg C (54 deg F).

Outlook for Thursday to Saturday:
Increasingly windy Thursday and Friday with outbreaks of rain or heavy showers. Becoming cold Friday with showers wintry over the hills. Still cold Saturday, but winds easing and fewer showers.
